

News release

Reynolds and Reynolds certifies ProfitNet™ management system for ERA® Dealer Management System (DMS)

WILMINGTON, Del. (September 12, 2006)

DuPont Performance Coatings (DPC) announced that the Reynolds and Reynolds Company has certified the ProfitNet™ shop management system to interface with the Reynolds ERA® Dealership Management System, allowing shops to operate more efficiently and productively.

The new ProfitNet™ interface is a bi-directional electronic bridge between ProfitNet™ and ERA®. The interface saves hours of double entry of data used by both systems. Key information including customer data, vehicle data, parts ordering and receiving, parts price increases, labor and repair order totals can now seamlessly be transferred. This interface also allows shops to import the Reynolds and Reynolds repair order number into ProfitNet™ for consistency between the two systems.

Tom McGarry, Information Technology Services Manager for DPC, said, "This latest bi-directional interface with Reynolds and Reynolds is one of many more enhancements on the way for ProfitNet™."

"DuPont Performance Coatings and our partner YADA Systems are dedicated to enhancing ProfitNet™ with the latest technology to lower shops' administrative costs by minimizing redundant computer tasks. We're committed to providing a management solution that is affordable, easy to use, and communicates with dealer management software, paint software, parts software, and accounting software."

Robert Schaefer, Technical Director of Data Services at Reynolds and Reynolds, said, "The ProfitNet™/ERA® interface underwent rigorous evaluation and testing to ensure that it meets our stringent guidelines for security, privacy, confidentiality, integrity and supportability. DuPont Performance Coatings has the full technical backing of Reynolds and Reynolds for this approved interface."
