

ProfitNet™ / Color Retrieval

System Requirements - Effective April 2006

These requirements outline the computer hardware necessary to operate ProfitNet™ / Color Retrieval. Exceeding these requirements is highly advised, as faster computers will enhance your computing experience.

	Color Retrieval (Minimum System Requirements)	ProfitNet™ (Minimum System Requirements)
CPU (Central Processing Unit)		
Server	<ul style="list-style-type: none"> • Intel® Pentium® 667, 256 MB RAM 	<ul style="list-style-type: none"> • Intel® Pentium® 667, 1GB RAM (Intel® Pentium® 4 3.0 GHz and 1GB RAM recommended)
Station	<ul style="list-style-type: none"> • Intel® Pentium® 450 or Celeron® 500, 64 MB RAM 	<ul style="list-style-type: none"> • Intel® Pentium® 667, 512 MB RAM
Operating System		
Server	<ul style="list-style-type: none"> • Windows® 2000/2003 server • Windows® 2000 Professional or Windows® XP Peer server • Please Note: The Windows® XP Home version is not supported as a Peer Server. A dedicated server is recommended for those networks exceeding (2) stations. 	<ul style="list-style-type: none"> • Windows® 2000/2003 server • Windows® 2003 Small Business • Windows® 2000 Professional or Windows® XP Peer server • Please Note: The Windows® XP Home version is not supported as a Peer Server. A dedicated server is recommended for those networks exceeding (2) stations.
Station/Standalone	<ul style="list-style-type: none"> • Windows® 2000 Professional or XP • Microsoft® Internet Explorer version 5.5 • Please Note: Windows® 95, 98 and ME are not recommended for ColorNet® or the major Estimating systems.) 	<ul style="list-style-type: none"> • Windows® 2000 Professional or XP • Microsoft® Internet Explorer version 5.5 • Please Note: Windows® 95, 98 and ME are not supported for ProfitNet™ or the major Estimating systems.)
Drives		
Server	<ul style="list-style-type: none"> • 10 GB hard drive space available (20 GB hard drive recommended) • CD-ROM drive (8x or faster) 	<ul style="list-style-type: none"> • 10 GB hard drive space available (40 GB hard drive recommended) • CD-ROM drive (8x or faster)
Station/Standalone	<ul style="list-style-type: none"> • 1 GB hard drive space available for a workstation and 2 GB available for a standalone (20 GB hard drive recommended) • CD-ROM drive (8x or faster) 	<ul style="list-style-type: none"> • 1 GB hard drive space available for a workstation and 10 GB available for a standalone (20 GB hard drive recommended) • CD-ROM drive (8x or faster)
Other		
Video Display	<ul style="list-style-type: none"> • SVGA 800 x 600 / 256 colors (minimum) • 2 MB VRAM or more 	<ul style="list-style-type: none"> • SVGA 800 x 600 / 256 colors (minimum) • 2 MB VRAM or more
Peripherals	<ul style="list-style-type: none"> • Printer: Windows® compatible printer (IBM 2380-001 and Panasonic KXP1150 not supported) • Keyboard: 101 standard or 104 Windows® • Mouse: Bus, PS/2 or serial • Backup Device: Tape drive, zip drive or other mass volume backup device 	<ul style="list-style-type: none"> • Printer: Windows® compatible printer (IBM 2380-001 and Panasonic KXP1150 not supported) • Keyboard: 101 standard or 104 Windows® • Mouse: Bus, PS/2 or serial • Backup Device: Tape drive, zip drive or other mass volume backup device
Software	<ul style="list-style-type: none"> • Adobe Acrobat version 4.0 	<ul style="list-style-type: none"> • Adobe Acrobat version 4.0

Network Components

- **Network card:** 10-Base T (100-Base T recommended)
- **Cable:** Category 5
- **Hub:** 10-Base T hub (100-Base T hub recommended)
- **Protocol:** TCPIP

Special Requirements

- **Phone Line:** Non-dedicated line available as needed for support connection.

Optional Equipment

- **Virus Protection:** Virus protection software is recommended
- **Powerline Conditioner:** Power line filter/UPS optional

General Terms

- Customer certifies that their hardware meets or exceeds the minimum requirements as specified.
- These requirements are for a system running DuPont Performance Coatings software products only. Loading software other than DuPont Performance Coatings products on these systems may impact system hardware requirements and system performance and may conflict with DuPont Performance Coatings products.
- As a software only Customer (hardware not supplied by DuPont Performance Coatings), a hardware vendor, system administrator or a local hardware technician of Customer's choice is the first point of contact for installation assistance. Experienced computer professionals should not have any difficulty with the installation.
- DuPont Performance Coatings will provide telephone support of the software installation process. Customer will ultimately be responsible for ensuring all hardware and software compatibility.
